

## Intelligent Basketball Training System

### >> Model: DL3

#### Parameter

1. Voltage: AC 110v/220v
2. Ball Capacity: 1-3 balls
3. Serving Height: 1.2-2m
4. Closed Volume: 90\*64\*172cm
5. Horizontal Angle: 180 degree
6. Power: 150w
7. Frequency: 2.5-10sec/ball
8. Net Weight: 127kg
9. Packing Volume: 94\*68\*185cm
10. Colour: Blue & Black

#### Function

1. Frequency, speed and mode adjusted by remote control
2. Can practice shooting, body posture, ball possession, two-pointers and three-pointers, fixed-point shooting, shooting in the field, casting, etc.
3. Circular network system, can be used for 1-5 balls.
4. 4 models, can select the fixed point, 2, 3, 5, 7 points.
5. Adjustable service frequency, 2.5-10sec/ball.
6. Suitable for #6 and #7 ball, adjustable speed.
7. The height of the ball can be freely adjusted according to the height of the player. The height of drop point is 1.2-2 meters.
8. Speed and frequency can be adjusted according to the player's habits and skill level to achieve technology improvement.

## Intelligent Basketball Training System

### >> Model: DL2

#### Parameter

1. Colour: Light Green
2. Net weight: 123kg
3. Power: 180w
4. Frequency: 2.6-4.5sec/ball
5. Voltage: AC 110v/220v

#### Function

1. Can practice shooting posture, holding skills, two-point and three-point shooting. Fixed-point shots, shooting on the move, jump shots, hollow shots etc
2. 17 points in different modes of programming
3. Fixed-point, horizontal ball, spin, speed adjustment, frequency adjustment
4. Circulating net system, which can be used for 1-3 balls
5. Fixed point or horizontal shooting with 180 degree
6. The distance between two service wheels can be adjusted according to personal preference or habits, to control the intensity and speed of the ball
7. Practice physical strength and reaction speed
8. Fastest: 2.6sec/ball, Slowest: 4.5sec/ball

# Intelligent Basketball Training System

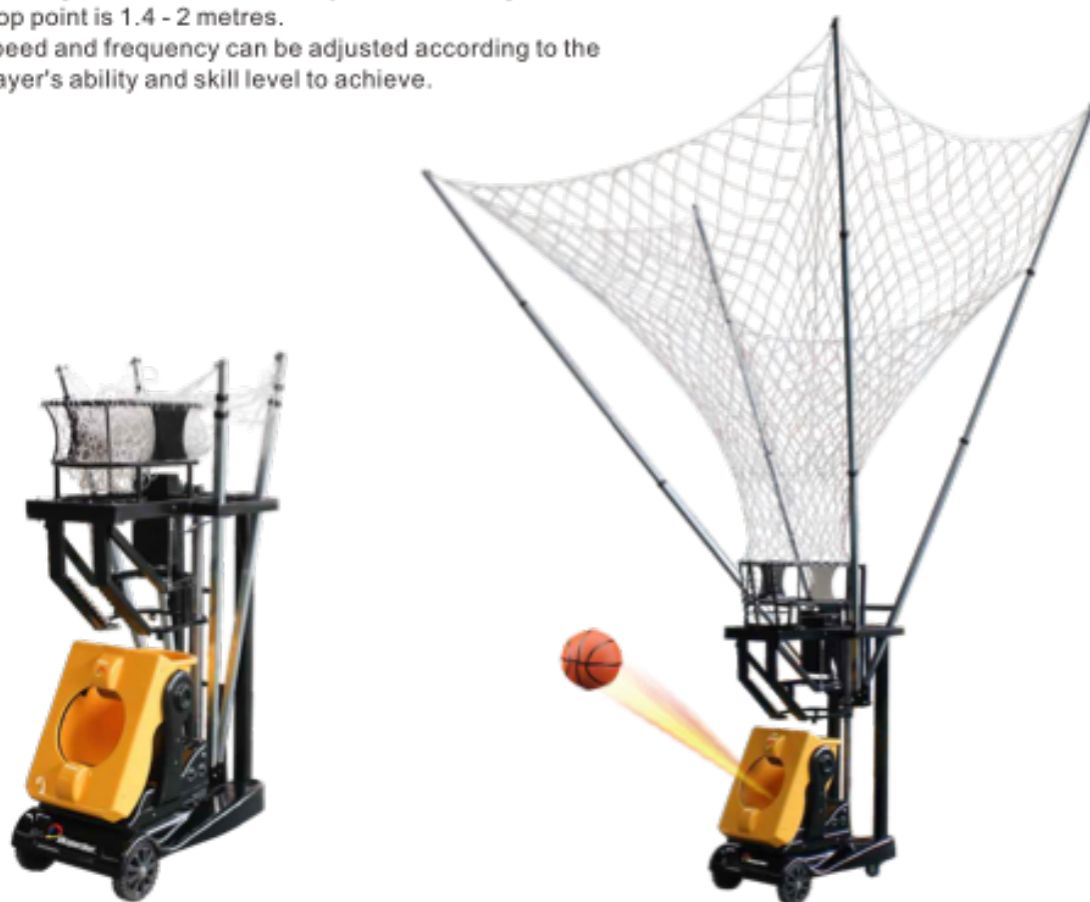

## >> Model: DL1

### Parameter

1. Power: 150w
2. Colour: Yellow & Black
3. Electrical Connection: AC(110/220V)
4. Weight: 120kg

### Function

1. Can practice shooting, body posture, ball possession, two-pointers and three-pointers, fixed-point shooting, shooting in the field, etc.
2. Circular network system, can be used for 1 - 5 balls.
3. Fixed point of 180 degree rotation, which can cover the entire field.
4. Adjustable service frequency, 2.3 - 6 sec/ball.
5. Suitable for #6 and #7 ball, adjustable speed.
6. The height of the ball can be adjusted. The height of drop point is 1.4 - 2 metres.
7. Speed and frequency can be adjusted according to the player's ability and skill level to achieve.

## basketball machine comparison table

Basketball Equipment				
Function	Model	DL1	DL3	DL2
Weight		120kg	127kg	123kg
Anti-glare black net Easy to install and user friendly Shooting with 180 degree Custom selection locations Vertical angle adjustment Horizontal angle adjustment Speed adjustment Frequency adjustment Suitable for size 6 & 7 basketball Cyclic working 1-3 balls Suitable for 100v-240v voltages Manual control Remote control Panel control Preset programming Store memories Free programming Shooting rate analysis Spin ball Delayed shooting protection				
		2 years	2 years	2 years

### Training contents

- Toss training
- Free shot training
- Hook shot training
- Swish shot training
- Tiptoe shot training
- Stop & jump shot training
- Defensive jump shot training
- Catching & jump shot training
- Moving speed
- Tactical training
- Physical training
- Moving footwork
- Coordinate training
- Endurance training
- Step back shot training
- False fake shot training
- Dribble shot training
- Passing game training
- Motion offense training
- Shooting stance training
- Random ball shot training
- Set two-point shot training
- Set three-point shot training
- Inside-out&out-inside passing training

## Intelligent Volleyball Training System

>> Model: DV2

## Intelligent Volleyball Training System

>> Model: DV2

### Parameter

1. Color: Yellow
2. Power: 160w
3. Frequency: 2-4 sec/ball
4. Ball capacity: 30 balls

### Function

1. Full-function remote control of digital display (speed, frequency, angle, rotation, etc.)
2. Intelligent drop-point programming, and self-training different modes of training
3. Practice different ball digging (Forearm, step by step, underhand, single hand, the sprawl, the roll and the dive), serving, smashing and passing etc
4. High-end wear-resistant wheels, easy to move
5. Automatic lifting, automatic feeding, no need to feed ball by hand

Smart remote control  
LCD interface

## Intelligent Tennis Training System

### Model: DT1

#### Parameter

1. Ball Capacity: 150 balls
2. Frequency: 1.8-8 sec/ball
3. Power: 150w
4. Net weight: 22kg
5. Voltage: AC 110v/220v, DC 12v

#### Function

1. Smart remote control with full function(speed, frequency, horizontal angle, spin)
2. Humanized design, internal serve direction, more practical training
3. One button to choose six kinds of cross-line ball
4. Be suitable for any tennis ball (training tennis, playing tennis, etc)
5. Internal battery with large capacity can last 3-4 hours

## Intelligent Tennis Training System

### Tennis DT40 training system

#### Parameter

1. Frequency :1-15sec/ball
2. Power: 660W
3. Colour: Black/Red
4. Ball Capacity: 800balls
5. Voltage: AC 110-220V is optional
6. Lifting system: 0-100cm

#### Function

1. Computer touch screen operation interface, Wireless WiFi Internet access, WIN7 operating system
2. Self-compiled landing point, self-compiling different modes of serve training. The whole court played at random at 28 landing points
3. Automatic lifting system
4. Net front ball, flat ball, high drop ball, kill ball, high speed serve, from single to multiple combination ball, achieve full coverage of tennis function
5. Be suitable for any tennis ball (training tennis, pressurized tennis, etc)

## Intelligent Tennis Training System

### Model: DT2

#### Parameter

1. Ball Capacity: 160 balls
2. Frequency: 1.8-8 sec/ball
3. Colour: Red, Black, White
4. Power: 150w
5. Net weight: 28.5kg
6. Voltage: AC 110v/220v, DC 12v

Smart remote control LCD interface

#### Function

1. Smart remote control with full function(speed, frequency, horizontal angle, spin)
2. You can realize different modes of training by intelligent programming
3. One button to choose six kinds of cross-line ball
4. Can set different speed, rotation and angle, drop point arbitrary choice
5. Be suitable for any tennis ball (training tennis, pressurized tennis, etc)
6. Internal battery with large capacity can last 5-6 hours, real-time display of electric quantity

## Intelligent Tennis Training System

### Model: DT3

#### Parameter

1. Power: 150w
2. Frequency: 1.8-8sec/ball
3. Colour: Red
4. Weight: 21kg
5. Package: 63.5\*53\*61.5cm
6. Capacity: 150 balls

#### Function

1. Smart remote control with multi-function (speed, frequency, angle, rotate, etc)
2. Random function, Top-back spin and power adjustment.
3. Suitable for any tennis balls (training balls, professional balls)
4. Portable telescopic rod, easy to move.
5. Standard accessories: remote control, charger, and cable.
6. Luxurious design easy to carry, can be placed in the trunk of any cars after folding.
