Intelligent Badminton Training System

➤➤ Model: DB2

Intelligent Badminton Training System

Model: DB2

Parameter

1. Colour: Black/Red
2. Ball capacity: 180 shuttles
3. Frequency: 1.2-4.5 sec/shuttles
4. Lifting system: Adjustable 0-70cm
5. Power: machine 120w, electric lifting 25w

Function

1. Full function intelligent remote control, full automatic lifting
2. The serving height is up to 7.5 meters with perfect smash function
3. Intelligent droppoint programming, self program different modes of training
4. One button to choose "6 kinds of cross line fixed modes", horizontal movement, vertical movement and other functions
5. The battery working time is 3-4 hours to let you train anywhere and anytime
6. Suitable for any badminton use (nylon ball, plastic ball, badminton, etc.)

Smart remote control
LCD interface

Intelligent Badminton Training System

Model: DB1

Parameter

1. Colour: Black/Red
2. Ball capacity: 180 shuttles
3. Frequency: 1.2-4.5 sec/shuttles
4. Vertical angle: 35~18degree
5. Horizontal angle: 33 degree
6. Lifting system: Adjustable 20-70cm
7. Power: 75w

Function

1. Full function intelligent remote control (speed, frequency, angle, etc.)
2. Angle adjustment system, the highest serving height can reach 7.5 meters
3. Suitable for any badminton (nylon ball, plastic ball, badminton, etc.)
4. High performance photoelectric sensor makes the machine more reliable and stable

Model: DB3

Parameter

1. Capacity: 180pcs
2. Power: 98w
3. Frequency: 1.2-4.5sec/ball
4. Elevation: manual
5. Lifting system: fixed or 0-75cm can be adjusted by manual
6. Horizontal: 30°(by remote)

Function

1. Semi-automatic remote control operation, remote distance over 100 meters, convenient and fast to use
2. Smart remote control with LCD screen to show functions of related instructions, clear and accurate
3. LCD display on remote control, easy to operate
4. Elevation angle adjusted by manual
5. Suited for any material balls (nylon ball, plastic ball and badminton ball)
6. Light and handy, suitcase type
7. Folding tripod wheels with brake, easy to carry
8. Accessories included the remote control and power cable
9. Fashion design, perfect size for car boot to carry.

Intelligent Badminton Training System

Model:DB8

Parameter

1. Frequency: 1.2-10sec/shuttles
2. Vertical angle: 35~-16 degree
3. Ball capacity: 360-400shuttles
4. Serving height: No. 1 machine: 40cm,
No. 2 machine: 159-227cm

Function

1. Full function intelligent computer control, 2 sets single machine, lifting system and control system
2. Vertical angle adjustment system, the highest serving height can reach 7.5 meters
3. Single machine shooting or 2 sets combination serving, self-programming the drop point
4. Suitable for any badminton use (nylon ball, plastic ball, badminton, etc.)
5. High-performance touch screen interface, full digital function placement, three-dimensional simulation of the stadium screen
6. Built-in 96 kinds of fixed-point and combined service modes

Touch screen control system
